LaHue and Associates

Application: Design, Fabrication for Retail and Commercial

LaHue and Associates

designs store fixtures, interior and exterior directories and point-of-sale displays for some of the West Coast's most well known private and public addresses.

"Our process revolves around our client. We are leaders in signage for the sight, hearing or physically impaired, but that doesn't mean it has to be boring! Architecture should always be functional," says Donna LaHue. "In fact, we believe if you don't notice it, how can a sign or a directory help you find what you need?"

We are always on the lookout for durable, beautiful and functional materials like the custom Corian that adds just the right touch of elegance to in store fixtures like basins, vanities and displays."

"Our goal is to create directories, point-of-sale and retail fixtures that are both functional and beautiful. Our design and fabrication is distinctive," she adds.

"We found something more than just a supplier in Architectural Plastics. API gives us new ideas, new options and new choices all the time. That's important to us, because that's what our customers demand."

Donna LaHue relies upon Architectural Plastics for our extensive inventory of high quality designer materials including LUMAsite®, Corian®, Acrylite®, Tru Vue Optima®, Imago®, 3form®, and Komatex® in a wide variety of colors, sizes and thicknesses directly from our Northern California warehouse and production facility.

With a full CNC machine shop and twenty skilled custom fabrication specialists, Architectural Plastics can provide quick-turn on hard to find or specialty products, either pre-cut, pre-fabricated or in bulk form in hard to find sizes. Do you have a tough design challenge or need custom fabrication? Give us a call!
