Material Safety Data Sheet

Corian® Solid Surface Material

Version 2.0

Revision Date 04/26/2011 Ref. 130000000804

This SDS adheres to the standards and regulatory requirements of the United States and may not meet the regulatory requirements in other countries.

SECTION 1. PRODUCT AND COMPANY IDENTIFICATION

Product name : Corian® Solid Surface Material
MSDS Number : 130000000804

Manufacturer : DuPont
Building Innovations
1007 Market Street
Wilmington, DE 19898

Product Information : 1-302-774-1000
Medical Emergency : 1-800-441-3637 (outside the U.S. 1-302-774-1139)
Transport Emergency : CHEMTREC: 1-800-424-9300 (outside the U.S. 1-703-527-3887)

Other information : OSHA Hazard Communication Standard (29 CFR 1910.1200) requirements for Material Safety Data Sheets do not apply to this product. This product is excluded as an article. Information on potential hazards associated with product fabrication and/or installation are discussed in this datasheet.

SECTION 2. HAZARDS IDENTIFICATION

Emergency Overview
The product as such is not hazardous. The hazards of this product are associated mainly with its processing. Operations such as sawing, routing, drilling and sanding can generate dust. WARNING! May form combustible dust concentrations in air (during processing). High concentrations of dust can irritate eyes, nose and respiratory system and cause coughing and sneezing. Corian® Solid Surface material does not emit gas at room temperature. At higher temperatures, small amounts of methyl methacrylate and butyl acrylate can be released. The amounts are dependent upon temperature, time and other variables.

Potential Health Effects
Additives in this product do not present a respiration hazard unless the product is ground to a powder of respirable size and the dust is inhaled. All dusts are potentially injurious to the respiratory tract if respirable particles are generated and inhaled.

Carcinogenicity
Material IARC NTP OSHA

SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

<table>
<thead>
<tr>
<th>Component</th>
<th>CAS-No.</th>
<th>Concentration</th>
</tr>
</thead>
<tbody>
<tr>
<td>Solid Surface Material</td>
<td></td>
<td>100 %</td>
</tr>
</tbody>
</table>

Exposure limits may be applicable for the following:

<table>
<thead>
<tr>
<th>Component</th>
<th>CAS-No.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Dust (inhalable and respirable fraction)</td>
<td></td>
</tr>
<tr>
<td>Methyl methacrylate</td>
<td>80-62-6</td>
</tr>
<tr>
<td>Butyl acrylate</td>
<td>141-32-2</td>
</tr>
</tbody>
</table>

SECTION 4. FIRST AID MEASURES

- **Skin contact**: No hazards which require special first aid measures.
- **Eye contact**: Rinse thoroughly with plenty of water, also under the eyelids.
- **Inhalation**: If large amounts of dust are inhaled, or if exposed to fumes from overheating or combustion, move to fresh air.
- **Ingestion**: No hazards which require special first aid measures.
SECTION 5. FIRE-FIGHTING MEASURES

Flammable Properties
Flash point : not applicable

Fire and Explosion Hazard : Avoid generating dust; fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard. Hazardous combustion products Carbon monoxide Carbon dioxide (CO2) Methyl methacrylate monomer Aldehydes Butyl acrylate

Suitable extinguishing media : Water spray, Dry chemical, Carbon dioxide (CO2), Foam

SECTION 6. ACCIDENTAL RELEASE MEASURES

NOTE: Review FIRE FIGHTING MEASURES and HANDLING (PERSONNEL) sections before proceeding with clean-up. Use appropriate PERSONAL PROTECTIVE EQUIPMENT during clean-up.

Safeguards (Personnel) : No special precautions required.

Spill Cleanup : Dust deposits should not be allowed to accumulate on surfaces, as these may form an explosive mixture if they are released into the atmosphere in sufficient concentration. Avoid dispersal of dust in the air (i.e., clearing dust surfaces with compressed air). Nonsparking tools should be used.

Accidental Release Measures : No special environmental precautions required.

SECTION 7. HANDLING AND STORAGE

Handling (Personnel) : Do not breathe dust. Do not breathe vapours or fumes that may be evolved during processing. Wash hands before breaks and at the end of workday. Minimize dust generation and accumulation. Routine housekeeping should be instituted to ensure that dusts do not accumulate on surfaces. Dry powders can build static electricity charges when subjected to the friction of transfer and mixing operations. Provide adequate precautions, such as electrical grounding and bonding, or inert atmospheres.

Storage : No special storage conditions required.
SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Engineering controls: It is recommended that all dust control equipment such as local exhaust ventilation and material transport systems involved in handling of this product contain explosion relief vents or an explosion suppression system or an oxygen deficient environment. Ensure that dust-handling systems (such as exhaust ducts, dust collectors, vessels, and processing equipment) are designed in a manner to prevent the escape of dust into the work area (i.e., there is no leakage from the equipment). Use only appropriately classified electrical equipment and powered industrial trucks.

Personal protective equipment

Respiratory protection: No personal respiratory protective equipment normally required. Dust safety masks are recommended when the dust concentration is more than 10 mg/m³.

Hand protection: Additional protection: Wear leather or cotton gloves when grinding, sawing, routing, drilling or sanding.

Eye protection: Safety glasses

Exposure Guidelines

Exposure Limit Values

<table>
<thead>
<tr>
<th>Substance</th>
<th>PEL: (OSHA)</th>
<th>Remarks</th>
</tr>
</thead>
<tbody>
<tr>
<td>Dust (inhalable and respirable fraction)</td>
<td>5 mg/m³ 8 hr. TWA</td>
<td>Respirable fraction. All inert or nuisance dusts, whether mineral, inorganic, or organic, not listed specifically by substance name are covered by the Particulates Not Otherwise Regulated (PNOR) limit which is the same as the inert or nuisance dust limit of Table Z-3.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Substance</th>
<th>PEL: (OSHA)</th>
<th>Remarks</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total dust</td>
<td>15 mg/m³ 8 hr. TWA</td>
<td></td>
</tr>
<tr>
<td>Inhalable particles</td>
<td>10 mg/m³ TWA</td>
<td></td>
</tr>
<tr>
<td>Respirable particles</td>
<td>3 mg/m³ TWA</td>
<td></td>
</tr>
</tbody>

Methyl methacrylate
PEL: (OSHA) 100 ppm 410 mg/m3 8 hr. TWA
PEL: (OSHA) 100 ppm 410 mg/m3 8 hr. TWA
TLV (ACGIH) 50 ppm TWA
TLV (ACGIH) 100 ppm STEL
Butyl acrylate TLV (ACGIH) 2 ppm TWA
AEL * (DUPONT) 2 ppm 8 & 12 hr. TWA, Skin

* AEL is DuPont's Acceptable Exposure Limit. Where governmentally imposed occupational exposure limits which are lower than the AEL are in effect, such limits shall take precedence.

SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES
Form: solid
Color: various
Odor: odourless
Density: 1.6 - 1.8 g/cm3
Water solubility: insoluble

SECTION 10. STABILITY AND REACTIVITY
Conditions to avoid: None reasonably foreseeable. Stable under normal conditions.
Hazardous decomposition products: Methyl methacrylate monomer, n-Butyl acrylate, Butyl acrylate

SECTION 11. TOXICOLOGICAL INFORMATION
Corian® Solid Surface Material
Further information: This product has no known adverse effect on human health.
SECTION 12. ECOLOGICAL INFORMATION

Additional ecological information : This product has no known eco-toxicological effects.

SECTION 13. DISPOSAL CONSIDERATIONS

Waste Disposal : Can be landfilled or incinerated, when in compliance with local regulations.

SECTION 14. TRANSPORT INFORMATION

Not classified as dangerous in the meaning of transport regulations.

SECTION 15. REGULATORY INFORMATION

TSCA Status : On the inventory, or in compliance with the inventory
DSL Status : This product contains one or several components listed in the Canadian NDSL list.
California Prop. 65 : The State of California, under Proposition 65, regulates Carbon Black - airborne, unbound particles of respirable size as a carcinogen. In this product, carbon black is not supplied in the form regulated in California.
PA Right to Know Regulated Chemical(s) : Substances on the Pennsylvania Hazardous Substances List present at a concentration of 1% or more (0.01% for Special Hazardous Substances): Methyl methacrylate, Butyl acrylate
NJ Right to Know Regulated Chemical(s) : Substances on the New Jersey Workplace Hazardous Substance List present at a concentration of 1% or more (0.1% for substances identified as carcinogens, mutagens or teratogens): Methyl methacrylate, Butyl acrylate
WHMIS Classification : - Not WHMIS controlled.

SECTION 16. OTHER INFORMATION

Corian is a registered trademark of E. I. duPont de Nemours and Company
Refer to NFPA 654, Standard for the Prevention of Fire and Dust Explosions from the Manufacturing, Processing, and Handling of Combustible Particulate Solids, for safe handling.
Before use read DuPont's safety information.

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.

Significant change from previous version is denoted with a double bar.
