

Negative no. 82134d. Collection of The New-York Historical Society.

anti-reflective

anti-static

abrasion resistant

UV protection

The Ideal Solution for *Your* Challenging Aesthetic and Conservation Needs

Recommended for:

- **Anti-reflective** display requirements for optimal viewing without distracting, mirror-like reflections
- **Anti-static** applications including friable media (pastels, charcoal), fragile surfaces, lightweight papers, textiles
- **Abrasion-resistance** from minor scratches associated with frequent cleaning, high-traffic areas, and or traveling
- **UV protection**, where light is not filtered at its source, so you can display sensitive objects
- Structurally sensitive frames, large works, and/or when glass is too heavy – **Half the weight of glass**
- Additional security, micro climates, or when breakage is a concern
- Easy cleaning – cleans like glass. Dry cleaning with microfiber cloth recommended

Wide Variety of Thickness & Sheet Sizes:

Optium[®]
Museum Acrylic

99% UV protection
 3mm (1/8 in.) 48 in. x 96 in. | 1219mm x 2438mm
 4.5mm (3/16 in.) 72 in. x 96 in. | 1829mm x 2438mm
 6mm (1/4 in.) 72 in. x 120 in. | 1829mm x 3048mm

Optium[®]
Acrylic

93% UV protection
 3mm (1/8 in.) 48 in. x 96 in. | 1219mm x 2438mm
